

ITEM 615.8086--08 - RELOCATE FLAG POLE

DESCRIPTION

This work shall consist of relocating an existing flag pole to the location shown on the plans or where specified by the Engineer. The Contractor shall exercise care in relocating the flag pole and protecting it after relocation. If the pole is damaged because of the Contractor's operations, it shall be replaced in kind and in manner satisfactory to the Engineer at the Contractor's expense.

MATERIALS

Materials shall meet the requirements specified in the contract documents.

CONSTRUCTION DETAILS

The construction details shall be as per the contract documents.

METHOD OF MEASUREMENT

This work will be measured as the number of poles relocated.

BASIS OF PAYMENT

The unit price bid per pole shall include the cost of furnishing all labor, materials, tools, and equipment necessary to satisfactorily complete the work. Repair of material damaged by the Contractor's operations shall be as per §107-08 and §107-09 of the Standard Specifications.
