

ITEM 616.30-----09 - LOG CUTOFF SILL

DESCRIPTION

This work shall consist of furnishing and installing Log Cutoff Sill in accordance with the contract documents and as directed by the Engineer.

MATERIALS

1. Logs: Timber shall consist of live healthy trees harvested from a nearby source within 30 days of use. Trees shall be conifers of either cedar, hemlock or spruce variety. Timber shall be clean, straight, and shall be sized as shown in the contract plans.
2. Uncoated bar reinforcement shall conform to Section 709-01

CONSTRUCTION DETAILS

The Contractor shall construct the Log Cutoff Sill in accordance with details as indicated in contract documents. The Log Cutoff Sill shall be installed as depicted and at the location(s) shown in the contract documents.

Excavation and backfill shall be performed as specified under Section 203.

METHOD OF MEASUREMENT

This work will be measured as the number of Log Cutoff Sills satisfactorily furnished and installed.

BASIS OF PAYMENT

The unit price bid per Log Cutoff Sill furnished and installed shall include the cost of all labor, materials, and equipment necessary to satisfactorily complete the work including all excavation and backfill.
